Subject: Consideration of an Early Morning Restriction Order for Ormskirk

Dear Sir

I would like to strongly object to the EMRO that is being considered for Ormskirk. The reasons being I am a Publican at the Queens Head Queen Inn and Ropers Arms, with a closing time implemented to a midnight curfew for a licences premises would be disastrous both for my business and many other bars pubs taxi firms restaurants and food take away outlets.

Many patrons come into Ormskirk for a night out bringing much needed finance to a small market town which is ever decreasing due to the closure of many local high street shops. There is also the threat of the indoor market closing.

People come in to Ormskirk of an evening nighttime rather than pay for taxis to Liverpool and Southport implementing a EMRO would turn this town into a "Ghost town" and would lead to the closure of many of the bars pubs restaurants and food outlets and well as local taxi firms which are all struggling in this continuous economic recession.

Please pass my objection on to the person dealing with this matter

Yours Sincerely

Elaine Wright

Publican
