The trees that will be removed will be replaced with other trees that are further away from the boundary of the property. The proposed fence would start at the rear of the property, parallel to the highway stopping at 17m in length. It will then return to the property with a length of 5 m, leaving room to install a 4m gate to give access to the back garden. We are also proposing a dropped kerb to the front of the property to allow access for two cars onto the driveway. The dropped kerb is approximately 3m wide and we propose that we increase the length to 9m allowing the dual car access.
