

**TO ANSWER ANY QUESTIONS UNDER THE PROVISIONS OF COUNCIL
PROCEDURE RULE 10.2**

a) Question from Councillor Ian Davis

"We welcome back the control of the grass cutting back to the WLBC and hope that many more services will be returned from outside contractors and LCC and provide much needed work for the residents of our area. Being Councillor Leader and in charge of improving our economic regeneration and attracting new industries to the area can you please advise how you are going to improve the first impressions that outsiders see when approaching our area. Both Skelmersdale and Ormskirk roundabouts need far more attention than they have been receiving. First impressions are always important and companies do look for this. Can you advise how many cuts per season will be made this year and next? Some residents have informed us that they have been advised that the planned cuts for this year will not be all done, is this correct?"

b) Question from Councillor Ian Davis

"We have been advised that there are problems with the bulky household waste service. Not the council's fault that the social enterprise running this operation has ceased operating. Can you please advise how you intend to take this matter forward in the future and if another social enterprise operator will be monitored how you intend to control it. Can we also have some indications as to why it failed and what caused it to fold?"
