Our Ambition

West Lancashire Borough Council is ambitious for West Lancashire, our Economy and Environment and for Health and Wellbeing across our local communities. The Customer Engagement Strategy will drive the delivery of these ambitions by establishing how the Council will be a listening and conversing organisation.

The Council will always look to improve and recognises the important role that our customers have in making changes and improvements to our services. We believe that by encouraging our customers to provide feedback, through a range of engagement opportunities, we are able to shape and improve our services by taking on board their views.

This Customer Engagement Strategy recognises the diversity of our communities and the need to provide appropriate opportunities for customers to participate at a level they wish to in order to influence service delivery, decision making and policy development.

The two priority outcomes for this strategy are:

- To have effective customer feedback and involvement that shapes Council services
- To build and develop a digitally active West Lancashire

We aim to deliver this by:

- Providing various involvement methods to enable customers to choose how they would like to be involved at a level they wish to in order to influence service delivery, decision making and policy development
- Increasing our digital engagement methods to customer to enable them to engage with us at a time and place that suits them

The strategy draws on good practices that the Council already follows and recognises the significant role that our customers have in making changes and improvements to services. It outlines our principles, levels of engagement and how we use feedback to influence decisions. It is supported by 3 action plans which will be monitored, reported and updated annually.

What is Customer Engagement?

Customer engagement is about making sure customers are involved and informed and able to take part in a range of ways to help influence service delivery. There are three main levels of customer engagement, these are:
APPENDIX A

- **Involving**
  Involvement is the most interactive form of engagement. Through involvement customers will have a greater depth of influence over decision-making and service delivery, for example through co-designing or commissioning services.

- **Consulting**
  Consultation allows customers to have their say about the decisions and services that affect them. We will provide opportunities for customers to take part and for their views to be heard and acted upon. We will make it clear at the start of the process what can and cannot be changed.

- **Informing**
  In order to get involved in influencing services policies and decisions customer need to be informed about what and when things are happening. We will provide clear and accurate information relating to when and how decisions affecting services and future policies are made.

To ensure that we meet our regulatory requirements some consultations must take place. Details of these can found on the Council website on the Your View section. You can access this by visiting [www.westlanics.gov.uk/more/your-views.aspx](http://www.westlanics.gov.uk/more/your-views.aspx)

**Our Engagement Principles**

The Council is committed to effective and influential engagement by linking customers to decision making, relating decisions to customer aspirations and needs and there being trust and confidence in the engagement processes. To achieve this we will follow the following principles:

1. **Be honest and open**
   We will be clear about the purpose of any engagement activity and what can be influenced. We will use honest, accurate and unbiased information.

2. **Make it easy**
   We will use a variety of engagement tools and information channels to make it easy for customers to be kept informed and give their views. We are developing further digital engagement methods through our social media platforms to ensure up to date information is shared in a timely manner with our customers.

3. **Listen to everyone**
   Undertake fair and impartial engagement to ensure that customers are offered equal opportunities to engage in issues that may affect them and enable them to have an effective role in setting priorities, designing services and influencing decisions.

4. **Keep in touch**
   Provide feedback and demonstrate the changes that are made as a result of customer engagement and feedback. Where we are unable to act on feedback we will explain why.

**Our Commitment to Engagement**
APPENDIX A

We want to ensure that we hear the voice of the customer in how services are delivered and decisions are made. We will seek to engage customers’ involvement and feedback on the following matters:

- Significant policy changes
- Shaping and planning service provision
- Financial planning
- Customer satisfaction on general Council services via our Citizen Survey
- Customer satisfaction for housing tenants via the Survey to Tenants and Residents (STAR)
- Significant projects which have an impact on the community e.g. Tawd Valley Park, Leisure facilities
- Matters were we have a legal obligation to consult

We will:

- Create opportunities for customers to be involved
- Enable customers to have an effective role in setting priorities, designing services, monitoring performance and making decisions
- Use customer feedback to help identify customer needs and were appropriate use these to influence Council policies and strategies
- Encourage ongoing feedback through comments, compliments and complaints by making this service available at any time for all Council services
- Seek feedback from customers when they access services e.g. housing repairs, as a way to continually monitor performance and customer expectations

**Delivering Customer Engagement**

To deliver customer engagement we will approach it by using two involvement principles. This will enable us to have a focused approach on how we deliver tangible results that are easily monitored.

**Effective customer feedback and involvement**

*Customer Feedback*

Customer feedback helps us to deliver excellent customer focused services. It lets us know what customers think we are doing well, identifies areas of poor satisfaction with our services and identify if there are any reoccurring themes.

*Tenant involvement*

We want to give our housing customers opportunities to be involved in shaping the services they receive. This can range from providing feedback about a repair, giving comments on new policies or being involved in our Tenant Scrutiny Group.

What we will do in the future is create more opportunities and a simpler experience which encourages customers to be involved and demonstrates how customer engagement informs decision making to support our communities.
Our customer feedback action plan (Appendix A) and our Tenant Involvement action plan (Appendix B) details the actions we will take to achieve this.

A digitally active West Lancashire

Customers’ expectations about how they access services are changing. There is increased demand from our customers to be able to transact and interact digitally with us, using a range of devices, including, smartphones, tablets and laptops to access services via online and social media channels. This includes engagement.

Since digital engagement is a newer area of customer engagement it therefore currently demands additional attention. We aim to increase our digital presence and offer our customers new, improved and accessible ways to interact with us and use our online services. Our digital engagement action plan (Appendix C) details the actions we will take to achieve this.

Methods for Effective Customer Engagement

Effective engagement will help us to understand our customers' needs and aspirations, which will help us deliver good quality services and better outcomes. It will help us to shape services based on what our customers tell us they want now and in the future.

In order to engage our customers, we will provide a wide variety of ways for them to receive information about services, provide feedback and get involved with Council services such as:

- The Council website
- Social media e.g. Facebook and Twitter
- Housing mobile app
- Comments, complaints and compliments
- Newspaper press releases
- Citizen survey
- Focus groups
- Meetings
- Surveys
- Tenant Scrutiny Group
- Your Voice – Tenant consultation group

We will include Councillors, Parish Councillors and partner agencies as appropriate, as part of our customer engagement activities to actively encourage a wider range of engagement and aim to seek a true reflection of our customer’s views.

To find out more about Parish Councils or who your local councillor is, visit www.westlancs.gov.uk/about-the-council.aspx

For more information about the Councils approach to Equality and Diversity, visit http://www.westlancs.gov.uk/about-the-council/how-the-council-works/equality-and-diversity.aspx
Using customer feedback

When we carry out a consultation exercise on a large scale, there are many different considerations taken into account before a decision is made. Customers' comments and involvement will form one part of the information used to make a decision.

Following all formal consultation and involvement we will:

- Publish a summary of feedback received and our response to it
- Show how the results have been used to influence final decisions
- Feedback the results and the decision to those who took the time to get involved where possible

This feedback will be provided on our dedicated consultation site 'Your Views' on the Councils website, this can be found at [www.westlancs.gov.uk/more/your-views.aspx](http://www.westlancs.gov.uk/more/your-views.aspx). We will look to develop this webpage to also evidence the change made as a result of all customer feedback.

We will also use comments, compliments and complaints to help gather customer feedback. Complaints are an important part of the Council's continuous improvement and listening approach. Whilst we aim to provide excellent standards of service to our customers at all times, we recognise that there may be occasions where we get things wrong. This could be when customers are dissatisfied with their individual experiences or their expectations are not met. When this happens we will review the complaint to understand all the issues and identify any lessons to be learned. Wherever possible we will use this information to improve our services.

Keeping your information safe

Review of the strategy

The strategy will be reviewed and re-issued every 3 years. However, during the period of this strategy we will review the ways in which we collect customer feedback to ensure we are using suitable methods, information is being used to improve or change services and it offers value for money.

Outcomes and Monitoring

It is important for us to know if we are achieving our aims for this strategy. We will do this by monitoring and updating the associated action plans. These will be published on the website annually.

Links to other Council documents

This strategy supports and links to a number of other council documents:
