Chapter 1	Introduction	1
Chapter 2	Local Plan Update – a timetable	5
Chapter 3	The Evidence Base	9
Chapter 4	Resources	15
Chapter 5	Risk Assessment	18

Chapter 1 Introduction

- 1.1 The Local Development Scheme (LDS) is a project plan for the preparation of the Local Plan for West Lancashire and any associated Supplementary Planning Documents or Neighbourhood Plans. The production of an LDS is a requirement on Local Planning Authorities arising from the Planning and Compulsory Purchase Act 2004, as amended by Section 111 of the Localism Act 2011. Furthermore, the Council's adherence to the timescale it sets itself within the LDS will be used as a performance measure.
- 1.2 This Local Development Scheme provides the project plan for the preparation of an Update to the adopted West Lancashire Local Plan 2012-2027 which will culminate in a new Local Plan for West Lancashire that it is anticipated will cover the period 2023-2038. This version of the LDS replaces that previously produced in September 2018. It includes the following Chapters:
- Chapter 1 provides an introduction and offers a background to why the Council has prepared an LDS and what the purpose of it is, as well providing a list of the current set of local planning policy documents;
 - Chapter 2 identifies the topics that we envisage will make up a new Local Plan for West Lancashire and the likely timescale for preparing the Local Plan;
 - Chapter 3 looks at the evidence base that will underpin the production of the Local Plan;
 - Chapter 4 identifies the resources available to the Growth and Development Service of the Council to support the preparation of a new Local Plan; and
 - Chapter 5 considers the risks that exist which could slow progress on the Local Plan and some of the mitigation measures which can be put in place.

Background

- 1.3 The current West Lancashire Local Plan 2012-2027 was adopted in October 2013 and while it is only just over seven years old (and has just less than half the original Plan period left to run), the context surrounding planning and development is constantly changing and national planning policy is evolving with it. This means that local planning policy, such as Local Plans, can quickly become out of date if they are not reviewed and updated accordingly. In particular, the National Planning Policy

Framework (NPPF) was revised in February 2019, and paragraph 33 of this now requires that local planning authorities must review their Local Plans at least once every five years, and then update them as necessary.

- 1.4 To this end, while the Council had already embarked on a since withdrawn "Local Plan Review" (which was effectively a review and an update, under the terminology of paragraph 33 of the NPPF) when this five-yearly review was introduced, a formal review of the West Lancashire Local Plan 2012-2027 in line with guidance and best practice associated with paragraph 33 of the NPPF has now been undertaken (see Appendices A and B) and it has demonstrated that a full update of the Local Plan is required, i.e. that it is most appropriate to prepare an entirely new Local Plan for the borough.
- 1.5 Such an update is necessary because an out-of-date Local Plan can have two main negative consequences. Firstly, an out-of-date Local Plan can stymie necessary growth, both economically and in terms of providing the right kind of development in the right place in a timely fashion. Secondly, if local planning policy is out of date it can be ineffective in managing and guiding where appropriate development should take place and can lead to a situation where the Council has less control or choice in its decisions.
- 1.6 Therefore, while the current adopted Local Plan for West Lancashire still has seven years to run, the Council consider it necessary to begin work on a new Local Plan that will bring planning policy that guides development in the borough up-to-date and consistent with the most recent evidence. However, while the new Local Plan is being prepared all policies in the current, adopted Local Plan will remain effective and a part of the Development Plan for the Borough until they are replaced by new policies in a newly adopted Local Plan. **The only deviation from the adopted Local Plan policy will be to utilise the standard Local Housing Need calculation to set the housing requirement for West Lancashire from now until a new Local Plan is adopted, in accordance with paragraph 73 of the NPPF, for the purposes of the Housing Delivery Test and calculating the five-year housing land supply in West Lancashire.**
- 1.7 Producing any Local Plan is a major project that requires significant resources in order to prepare it and a project management approach is vitally important to enable production within a given timescale. The Council views the LDS as a key project

management tool in the production of its Local Plan. The LDS has three main purposes:

- To inform people of how the Local Plan will be prepared and the likely timescale involved;
- To establish work priorities and enable work programmes to be formed; and
- To set a timescale for the monitoring and review of the preparation of such documents.

1.8 This LDS provides a project plan for preparing a new Local Plan for West Lancashire and future iterations of the LDS may include project plans for new Supplementary Planning Documents or Neighbourhood Plans, should any need to be prepared, and for which the Council is responsible for. Minerals and Waste matters are the responsibility of Lancashire County Council, and so the preparation of the relevant Development Plan Documents related to those matters do not form part of this LDS.

Current Local Planning Policy documents

1.9 The current adopted Development Plan for West Lancashire is made up of four documents:

- The West Lancashire Local Plan 2012-2027 DPD (October 2013);
- The Joint Lancashire Minerals and Waste Development Framework Core Strategy DPD (February 2009);
- The Joint Lancashire Minerals and Waste Local Plan: Site Allocation and Development Management Policies (September 2013); and
- (affecting planning decisions in the parish of Burscough only) the Burscough Parish Neighbourhood Plan (July 2019).

1.10 In addition, one policy from the West Lancashire Replacement Local Plan 2001-2016 was saved at the time of the adoption of the current Local Plan. Policy DE4 – Caravan Sites for Gypsies and Travelling Show People – is therefore currently still part of the Development Plan.

1.11 The Council has a number of Supplementary Planning Documents (SPDs) that are current and several Supplementary Planning Guidance documents (SPGs) that have been retained and are still relevant:

- [Development in the Green Belt SPD](#) (October 2015)
- [Yew Tree Farm, Burscough Masterplan SPD](#) (February 2015)
- [Provision of Public Open Space in New Residential Developments SPD](#) (September 2014)
- [Skelmersdale Town Centre Masterplan SPD](#) (September 2008)
- [Design Guide SPD](#) (January 2008)
- [Accommodation for Temporary Agricultural Workers SPG](#)
- [Affordable Housing SPG](#)
- [Design Guide for Shop Fronts SPG](#)
- [Natural Areas and Areas of Landscape History Importance SPG](#)
- [Trees and Development SPG](#)
- [Site Planning - Layout and Design SPG](#)
- [Dalton Village Design Statement SPG](#)
- [Whalleys Housing and Mixed Use Sites SPG](#)
- [Whitemoss Business Park SPG](#)
- [Land West of Stanley Industrial Estate SPG](#)

1.12 The Council also has a **Statement of Community Involvement** (SCI), adopted in June 2016. However, a new SCI is currently in preparation with a view to consulting on it in early 2020 and adopting it in June 2020. The SCI sets out who the Council will consult on various aspects of planning, and what methods the Council will use.

Community Infrastructure Levy (CIL)

1.13 CIL is not technically local planning policy, or a matter that is required to be reported on in the LDS, but it is inextricably linked to local planning, being a levy that is placed on new development at the time permission is granted. As a new Local Plan is prepared, it is inevitable that a new CIL Charging Schedule will need to be prepared in order to ensure that CIL is charged at the correct level based on viability evidence that incorporates the new local planning policy context. The Council will therefore determine in due course the most appropriate time to review the CIL Charging Schedule, and will plan for it in a future iteration of this LDS.

Chapter 2 Updating the Local Plan – a timetable

2.1 The timetable for the preparing a new Local Plan is set out in the following chart, and this chapter seeks to explain a little more about a number of key stages in the process of the Local Plan Review.

Stage of Preparation	Q1 2020	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021	Q3 2021	Q4 2021	Q1 2022	Q2 2022	Q3 2022	Q4 2022	Q1 2023
Preparation of Evidence	■	■	■	■	■	■	■						
Preparation of Regulation 18 Consultation			■										
Regulation 18 Public Consultation				■									
Preparation of Pre-Submission Local Plan					■	■	■						
Publication / Pre-Submission Consultation								■					
Submission to Planning Inspectorate									■				
Examination in Public									■	■	■	■	■
Receipt of Inspector's Report													■
Adoption of Local Plan													■

The New Plan Period

2.2 Given the above timetable, which would see the new Local Plan adopted in the first quarter of 2023, and the fact that paragraph 22 of the NPPF requires that *"strategic policies [in a new Local Plan] should look ahead over a minimum 15 year period from*

adoption", the Council will prepare the new Local Plan to cover a 15-year Plan period from 1st April 2023 to 31st March 2038.

Regulation 18 consultation and Preparation of Evidence

- 2.3 Regulation 18 of The Town and Country Planning (Local Planning) (England) Regulations 2012 essentially requires that, when preparing a new Local Plan, the Council must consult on the "subject" of a Local Plan that it is proposing to prepare, and what it "ought to contain". As such, the Council proposes to bring forward a Regulation 18 consultation in Autumn 2020 on the potential content of a new West Lancashire Local Plan 2023-2038. This will identify the key issues the Council believes the Local Plan needs to address, options for how planning policies might address those issues and an indication of the Council's preferred option for the approach planning policies in the Local Plan might take to deal with each of those issues (based on the best available evidence and best practice at that time). The Council's citizenspace website (<https://westlancs.citizenspace.com/>) will be where the Regulation 18 consultation will be hosted, and it will be designed with the intention of making it as easy as possible to learn more about, and provide helpful feedback on, the issues, options and preferred options identified by the Council.
- 2.4 Preparation of evidence to better understand key planning issues is an essential part of preparing a new Local Plan as it must directly inform the preparation of new local planning policy. Given that the Council had, until recently, been preparing a Local Plan Review for West Lancashire, a great deal of evidence is already available, and much of this will be of use as a new Local Plan is prepared. However, some issues will require a fresh look at up-to-date evidence, particularly in relation to the key issues of need and demand for new housing and economic development. Some evidence studies also have to assess the proposals in a new Local Plan. As a result, the evidence collation stage will happen throughout the Local Plan preparation process right up until the Publication / Pre-Submission document has been prepared (see below). Preparation of evidence is covered in greater detail in the next chapter.

Publication of the Pre-Submission Local Plan, and Submission for Examination

- 2.5 Following the Regulation 18 consultation, and taking into account the feedback received through that process, the Council can then start to draw up the actual new Local Plan document, which will include a series of planning policies (strategic and non-strategic), site allocations and a Policies Map. This culminates in the publication of what is known as the Pre-Submission version of the Local Plan (covered by

Regulation 19 of The Town and Country Planning (Local Planning) (England) Regulations 2012). This is essentially the “final draft” version of the Local Plan which the Council wishes to submit for Examination. It is published to give members of the public and other stakeholders the opportunity to make formal representations on the Pre-Submission version of the Local Plan. These representations are then submitted, with the Local Plan, to the Secretary of State for the Examination of the Local Plan.

- 2.6 Any representations (comments) made at this stage need to be made formally through a specific form at this Publication / Pre-Submission stage, utilising a set format prescribed by the Planning Inspectorate to ensure all comments relate to the tests of soundness, or whether the Plan has been prepared in accordance with all the legal requirements. This is because those representations are passed directly to the Planning Inspector appointed to examine the proposed new Local Plan once the Council decides to submit the Local Plan, and the Inspector will consider those representations as they examine the proposed new Local Plan.

Examination and Adoption of the Local Plan

- 2.7 Once the Local Plan is submitted, it is then in the hands of the Planning Inspectorate to appoint an Inspector to undertake the Examination and write a report concluding whether or not the Local Plan is sound, and outlining any changes that are necessary to make it sound. The Examination will include public hearing sessions facilitated by the Planning Inspector, designed to help the Inspector better understand all aspects of, and concerns about, the proposed new Local Plan. If there are significant changes proposed by the Inspector (known as main modifications) there may need to be a further stage of consultation during the Examination, with all responses ultimately being considered by the Inspector. Once the Local Plan has been found sound by the Inspector, the Council can adopt it.

Summary of Planning Policy documents to be produced

West Lancashire Local Plan 2023-2038	
Document Details	<p>Role & Content: Sets out the main planning context of the Borough, the development strategy for the Borough and priority locations for development, development management policies and site allocations;</p> <p>Status: Development Plan Document (DPD);</p> <p>Chain of Conformity: The Local Plan should conform with the National Planning Policy Framework (NPPF). Any additional DPDs or SPDs, and any Neighbourhood Plans, should conform with the Local Plan;</p> <p>Geographic Coverage: Whole Borough.</p>

Timetable	Regulation 18 Consultation Publication / Pre-Submission Submission to Planning Inspectorate Examination in Public (inc. Hearings) Adoption	September – November 2020 September – November 2021 February 2022 February 2022 – January 2023 February 2023
Arrangements for Production	Prepared by Strategic Planning, Regeneration & Implementation Team with support from wider Growth and Development Service; Input from other Council services and partner organisations as required; Input and approval from Members principally via Cabinet and the Local Plan Cabinet Working Group and, for submission and adoption, Council; Adequate staffing resource is available within Department for production.	
Progress	Preparation commencing January 2020	

Chapter 3 The Evidence Base

3.1 The preparation of a new Local Plan requires an extensive evidence base covering a wide range of topics and the following provides a summary of what evidence the Council have collected, are collecting, and when, to inform this process. This list could well change, especially if feedback from consultation with stakeholders identifies a gap in the proposed evidence base. All published versions of the various evidence base studies (whether in draft or as a final version) are available on the Council's website at: <http://www.westlancs.gov.uk/planning/planning-policy/the-local-plan/local-plan-review/evidence-base.aspx> .

- **Liverpool City Region Strategic Housing and Employment Land Market Assessment (SHELMA)**

The Council have been working with the Liverpool City Region Authorities on the preparation of a SHELMA since the start of 2016. The SHELMA identifies the objectively-assessed need (OAN) for housing and employment land across the City Region and by individual Authority to 2037. The final version of the SHELMA Part 1 (March 2018) is on the Council's website.

Further to the SHELMA Part 1, the LCRCA (with West Lancashire) have prepared a second part to the SHELMA which investigates the potential supply of sites for large-scale B8 uses given the need identified in the SHELMA for large-scale B8 across the LCR and West Lancashire. **The SHELMA Part 2 is on the Council's website (with the most recent element dated August 2019).** Part 2 identifies the realistic existing supply of employment land that is likely to be able to accommodate large-scale B8 uses across the City Region (including West Lancs) and then goes on to explore the potential new locations where land might be allocated through Local Plans for large-scale B8 uses in order to meet the undersupply of suitable sites identified in the City Region.

- **Affordable and Specialist Housing Needs Study (ASHNS)**

Whilst the SHELMA looks at overall housing needs, the ASHNS (February 2018) looks specifically at the local need for affordable housing in its various forms (social rent, affordable rent, shared ownership, etc.), as well as the need for housing for the elderly, and for people living in houseboats in caravans (non-travellers). The final report is available on the Council's website.

- **Housing and Economic Development Needs Assessment (HEDNA)**

A fresh HEDNA study is required to update the evidence informing all aspects of employment and housing need and demand in the borough. This new study will replace the SHELMA (insofar as it considers West Lancashire's needs), ASHNS and previous HEDNA and Housing Growth Scenarios work, and so bring the evidence up-to-date for a new Local Plan. The study will consider:

- What economic and employment growth (by sector) is anticipated;
- What overall housing growth is therefore needed (demographic growth plus any as a result of economic/employment growth); and
- What specific affordable and specialist housing needs there are in the borough.

This study will also inform the preparation of a new Economic Development Strategy and a new Housing Strategy for West Lancashire.

- **Strategic Housing and Employment Land Availability Assessment (SHELAA)**

The SHELAA has two functions:

- 1) to enable all sites that are potentially available for development to be brought to the attention of the Council and ultimately be assessed as to their suitability for development, and
- 2) to identify the 5, 10 and 15-year supply of sites in the SHELAA that are currently, in principle, policy-compliant with the current, adopted Local Plan.

The SHELAA is generally updated each year, and 2019 SHELAA is currently on the Council's website. A fresh Call for Sites will be issued in early 2020 and this will be used to inform a 2020 SHELAA Update and the Local Plan Regulation 18 public consultation.

- **Traveller Needs Assessment**

A Gypsy and Traveller Accommodation Assessment was undertaken by consultants in 2013/14 for Merseyside and West Lancashire. Since then, the Government has changed the definition of "traveller". The 2017 Traveller Needs Assessment provides an updated figure for accommodation needs for the travelling community in West Lancashire, taking into account the government's revised definition of a traveller. The study is available on the Council's website. This study will be updated as necessary in 2021 to inform a new Local Plan.

- **Retail and Commercial Leisure Study**

The Council appointed consultants Peter Brett Associates to produce a Borough wide Retail and Leisure Study in order to meet requirements set out by paragraph 85 of the revised NPPF. The Study identifies future retail and leisure floorspace requirements for the Borough with a view to informing the allocation of sites for future town centre uses in the Local Plan, undertaking health checks of Burscough, Ormskirk and Skelmersdale town centres and identifying future strategies for each of these centres. The study was completed in June 2018 and is available on the Council's website. This study will be updated as necessary in 2021 to inform a new Local Plan.

- **Traffic / Transport Impact Assessment**

The Council appointed WYG to prepare an Assessment identifying the additional traffic flows that were considered likely to be created by new sites proposed in the Local Plan Review Preferred Options and how that traffic would affect the existing Key Route Network and Strategic Route Network. While the Local Plan Review was ceased, this study highlighted the need to undertake a closer look at how new developments and new transport-related proposals may affect how people use the borough's highway network and so Lancashire County Council have commissioned highways modelling for the borough's highway network. This will allow the Council, in close consultation with Highways England and Lancashire County Council, to consider where improvements may be required on particular routes / junctions to mitigate for additional flows as new proposals for a new Local Plan, or for new transport infrastructure, are prepared and tested.

- **Infrastructure Delivery Plan (IDP)**

The Council published a draft IDP alongside the Local Plan Review Preferred Options consultation. This could only consider existing infrastructure capacity compared to existing demand, and initial consideration of the impact of the Preferred Options on infrastructure capacity. As a new Local Plan is prepared, the IDP will be developed in consultation with Infrastructure Providers to consider how the existing infrastructure in the Borough will be able to cope with the additional demands placed upon it by any new development proposals and identify any improvements that will need to be made to infrastructure to meet any increased demand from the new Local Plan. A final IDP will be published alongside the Pre-Submission version of the Local Plan at the Publication stage.

- **Sustainable Settlement Study**

The Council prepared a Sustainable Settlement Study in 2017 to consider how sustainable each town and village in West Lancashire is, when considering access to key services. This will be updated in 2020 to inform the preparation of a new Local Plan. The study guides the setting of an appropriate settlement hierarchy in the new Local Plan and informs deliberations over which settlements should be the focus for new development.

- **Playing Pitch Strategy Review**

A West Lancashire Playing Pitch Strategy (PPS) was adopted as Council policy in February 2016. The PPS considers a range of sports including football, rugby union, cricket, hockey and bowls and identifies future needs for pitches. It recommends a number of priority projects which should be implemented between 2015 and 2025 for pitches and associated facilities such as changing rooms and will be used to identify which pitches and facilities should be protected and where any new provision should be made. In order to identify progress with recommendations and identify any important changes that have taken place, the PPS was refreshed in accordance with Sport England's Playing Pitch Strategy Guidance for keeping a strategy robust and up to date. This PPS Review, prepared by consultants KKP, is available on the Council's website. This strategy will be updated as necessary in 2021 to inform a new Local Plan.

- **Open Space Study**

The Council appointed consultants KKP to update a borough-wide Open Space Study to identify local open space needs, audit local site provision, set local open space standards and apply those standards to identify surpluses and deficiencies in different types of open space across the Borough. The Study developed a strategy, identifying where and how open space should be protected and enhanced, and where future new provision should be created. This will be used to determine open space designations and planning policies in the new Local Plan. This Open Space Study is available on the Council's website.

- **Strategic Flood Risk Assessment (SFRA)**

Paragraph 156 of the revised NPPF indicates that Local Plans should be supported by a Strategic Flood Risk Assessment. The Council consulted on a draft Level 1 Strategic Flood Risk Assessment (SFRA) between March and April

2017. A preliminary draft Level 2 SFRA was also prepared and published alongside the Local Plan Review Preferred Options consultation. The primary purpose of the SFRA is to provide information on flood risk from all sources in the Borough and inform decision making in the emerging Local Plan in terms of the allocation of land and drafting of policies to manage flood risk. The Level 1 and Level 2 SFRA was updated in light of comments received during consultation, with consultants JBA appointed to prepare a more detailed Level 2 SFRA to assess those allocations that were proposed in the Local Plan Review Preferred Options and which may impact on flood risk. **That SFRA is available on the Council's website,** but an updated SFRA will be prepared as necessary in 2021 to inform the preparation of a new Local Plan.

- **Green Infrastructure and Cycling Strategy**

The Council have prepared a Green Infrastructure and Cycling Strategy which was adopted in September 2017. The Strategy sets out the Council's aspirations for new Green Infrastructure and cycling infrastructure across West Lancashire, in particular the proposed Linear Parks and the West Lancs Wheel. As such, the Local Plan will be prepared with regard to how parts of the Strategy might be delivered alongside (or by) new development.

- **Low Carbon and Renewable Energy Study**

The Council appointed consultants Wood to prepare a study that assessed the potential capacity of West Lancashire to provide Renewable Energy or Low Carbon Developments, taking into account constraints that would impact on the suitability of such developments in a given location. The study identifies areas which are most suitable for particular types of Renewable Energy developments, and this will inform any policy on Renewable Energy developments in the new Local Plan. This study is available on the Council's website.

- **Local Plan Viability Assessment**

Keppie Massie were appointed to prepare a Viability Assessment for the Local Plan Review but this study was aborted when the Local Plan Review was ceased. As proposals for a new Local Plan are prepared, a fresh Viability Assessment will be prepared in 2021 to assess and inform the proposed policies and allocations in a new Local Plan, to ensure they will enable viable developments to come forward in West Lancashire. This study will also inform any review of the CIL Charging Schedule.

- **Technical, Thematic and Spatial Evidence Papers**

The Council will prepare a range of evidence papers to summarise the available evidence, data and information on particular topics and to explain how proposed policies in the new Local Plan were arrived at.

- **Sustainability Appraisal / Strategic Environmental Assessment**

A Sustainability Appraisal / Strategic Environmental Assessment (SA/SEA) is a legal requirement as part of a Local Plan preparation to assess the sustainability merits and environmental impacts of the Local Plan and the alternative options that have been considered. As such, it is an integral part of the evidence and decision-making process on the Local Plan. The SA/SEA will also consider Health impact as part of the appraisal.

- **Habitat Regulations Assessment (HRA)**

A HRA is another legal requirement to consider the impacts that the Local Plan may have on internationally-designated nature sites, such as Martin Mere and the Ribble Estuary. The HRA must first scope out whether impacts are potentially likely and then carry out an Appropriate Assessment of those impacts to identify any issues which the Local Plan must address or mitigation required to minimise the impacts of new development.

- **Equality Impact Assessment**

Many aspects of new development and the way a place functions can have impacts on a population and can have different effects on different groups of the population. As such, the Council will prepare an Equality Impact Assessment of the Local Plan in order to identify ways in which the Local Plan can be improved to ensure that no particular group in society is prejudiced by the proposals.

Chapter 4 Resources

- 4.1 The new Local Plan will be produced by the Council’s Strategic Planning, Regeneration & Implementation Team, but a document as wide ranging as a Local Plan will inevitably involve input from various parts of the Council as well as from external partners.
- 4.2 The Strategic Planning, Regeneration & Implementation Manager will take the lead role in developing the new Local Plan, project managing the process and the preparation of a new Local Plan and all other local planning policy documents and CIL documents.
- 4.3 The Strategic Planning, Regeneration & Implementation Team will liaise closely with a number of other Council sections in developing the Plan, including:
- The Development, Heritage & Environment Team (who will use the Local Plan to make decisions on planning applications and advise on design, heritage, trees and landscaping)
 - The Building Control and Technical Services Team (who will advise on flooding, drainage and other engineering matters, and on how policies may best inter-relate with the Building Regulations)
 - The Wellbeing and Leisure Service (on leisure / public open space and health matters)
 - The Environmental and Community Protection Service (on environmental protection, public health and community safety matters)
- 4.4 In addition to the Strategic Planning, Regeneration & Implementation Manager, the staffing resource of the Strategic Planning, Regeneration & Implementation Team includes five officers with (or working towards) the appropriate qualifications, as well as specialists on Economic Development and Housing Strategy. It is considered that this level of staff, supplemented by a budget to cover the costs of external specialist consultancy advice needed to prepare certain evidence studies, is sufficient to adequately resource the preparation of a new Local Plan, and its evidence, up to the point of submission as well as the following:
- Preparation of all other local planning policy documents, including any Neighbourhood Plans;

- Responding to new Government planning policies, and other Government strategies and plans related to Planning;
- Engaging with adjacent authorities and other agencies on planning, economic development and housing strategy matters, including inputting on key strategies and projects prepared by those other authorities and agencies (e.g. Transport Strategies);
- All monitoring required to prepare the Annual Monitoring Report and Housing Land Supply position;
- The on-going maintenance of the Infrastructure Delivery Plan and Infrastructure Delivery Schedule;
- Administration of the Community Infrastructure Levy and how it is spent;
- Implementation of key projects to help deliver the proposals within the Local Plan and other documents, particularly transport and infrastructure related;
- Preparation of other key Council strategies such as the Economic Development Strategy, Housing Strategy and Town Centre Strategies; and
- Advising the Council's Development Management Team on the interpretation of planning policies and economic development and housing strategy matters and, where necessary, attending planning appeals.

4.5 Given that West Lancashire Borough Council is a two-tier Authority with Lancashire County Council, the Strategic Planning, Regeneration & Implementation Team will also continue to liaise closely with the County, especially on issues of highways and transportation, as well as having reference to the County's planning policy work on Minerals and Waste and their role as Education Authority and in helping to deliver Economic Development. On the issue of strategic planning and transport, the Strategic Planning, Regeneration & Implementation Team also liaise closely with Liverpool City Region Combined Authority (as the authors of the LCR Strategic Development Strategy and as Merseytravel, the public transport executive for Merseyside, extending into parts of West Lancashire) and the Greater Manchester Combined Authority (including Transport for Greater Manchester).

4.6 Resources have also been, and will continue to be, saved through effective partnership working with neighbouring Local Authorities. The Strategic Planning, Regeneration & Implementation Team are working closely with their peers in Merseyside, Lancashire and Greater Manchester in order to deliver "joined-up" cross-border planning on many issues that are not restricted by Local Authority boundaries. This helps to fulfil the Duty to Co-operate introduced by the Localism Act 2011, and will

include a range of Statements of Common Ground with neighbouring authorities as necessary (including the existing first iteration of the LCR Spatial Planning Statement of Common Ground which is available on the Council's website).

- 4.7 The Strategic Planning, Regeneration & Implementation Team will also continue to liaise closely with a wide range of infrastructure providers to ensure that development is located where infrastructure is already provided or to consider how new or improved infrastructure can be provided over the Local Plan period to meet the needs created by development in the new Local Plan.

Chapter 5 Risk Assessment

- 5.1 The planning system requires effective project management techniques to ensure, as far as possible, that stated timetables for Local Plan, and other local planning policy document, preparation are adhered to. Through the use of such techniques, the Strategic Planning, Regeneration & Implementation Team will endeavour to ensure that progress is kept 'on track', in accordance with the dates set out within this LDS. However, there are a variety of circumstances which alone, or in combination, can conspire to delay the preparation process.
- 5.2 It is important that the Council, the local community and all other stakeholders in the planning process, are aware of the possible risks to preparation. This is so that the risks can be minimised or mitigation measures put in place in the case of delays being occasioned. The following table identifies some of the more likely risks that could prejudice Local Plan preparation and the mitigation measures that could be employed.

Risk	Mitigation
<p>Legislation / Government Guidance</p> <p>Publication of national planning policy statements can generate new issues that the Local Plan, or its preparation, must address, sometimes causing delays.</p>	<p>Maintain close liaison with latest national guidance and its preparation.</p> <p>Revise Local Plan timetable if necessary.</p> <p>Adequate budgetary provision for consultancy support if required.</p>
<p>Planning Inspectorate</p> <p>Delays could be caused if the Local Plan or other documents takes longer than expected in the Examination process.</p>	<p>Keep in touch with Inspectorate and advise them of requests for Examinations at the earliest possible time.</p> <p>The Council will monitor Inspector's decisions elsewhere to seek to ensure the Council is following best practice.</p>
<p>Legal / Soundness</p> <p>Local Plan fails tests of soundness which would significantly delay process.</p> <p>Legal challenge to document could see Local Plan, or part of it, quashed.</p>	<p>Ensure robust evidence base and use PAS Local Plan toolkit.</p> <p>Draw on external expertise where necessary to ensure evidence and approach to policy is robust.</p> <p>Ensure procedures, Acts and Regulations are complied with.</p>

Risk	Mitigation
<p>Other External Bodies</p> <p>The planning system involves complex arrangements for co-operation, consultation, engagement and evidence gathering. Failure on the part of other bodies to respond on time or to provide adequate responses (which require subsequent clarification) could cause significant delay to work programmes.</p>	<p>Contact external bodies at the earliest opportunity and communicate clearly and regularly with them to minimise risk of no / poor responses and therefore delays.</p>
<p>Joint Working</p> <p>There can be challenges in achieving joint working with other local authorities on evidence base and ensuring that the Duty to Co-operate is fulfilled because each authority is working to their own programme and has their own particular concerns with regard an area of evidence. As such, projects / evidence studies can take longer when joint working is involved.</p>	<p>Establish clear working arrangements with other local authorities and ensure strong programme / project management.</p>
<p>Staffing</p> <p>Individual absences due to leave, personnel changes or sickness can cause delays in document production.</p> <p>Staff could leave the authority and could be difficult to replace, therefore causing delays to document production while the team is under-strength.</p>	<p>Local Plan timetable should be set on a realistic basis taking into account the staff resources available.</p> <p>Ensure quick replacement of staff wherever possible.</p> <p>Flexibility of staff within the Growth and Development Service enables opportunities for planning officers from other teams in the Service to help with workload.</p> <p>Some elements of work can be undertaken by consultants, where there is financial resource available.</p>
<p>Political Direction / Management</p> <p>Members requiring late amendment to proposed documents or not willing to approve a document for consultation / submission / adoption.</p>	<p>Early consultation and information sharing with Members will reduce the likelihood of late amendments being required or documents being rejected.</p>
<p>Reduced Council Resources</p> <p>In the current climate of austerity, and reducing Council budgets, it is possible the resource available to the Growth and Development Service would be reduced, affecting the speed at which a Local Plan can be prepared.</p>	<p>Explore all opportunities for joint working and service sharing.</p> <p>Maximise flexibility across the Service.</p> <p>Revise Local Plan timetable if necessary.</p>

Risk	Mitigation
<p data-bbox="188 275 384 304">Evidence Base</p> <p data-bbox="188 322 775 477">The Evidence Base behind a Local Plan can become out-of-date over time, and the Planning Inspectorate provides guidance on how recent some of the key evidence needs to be to be considered up-to-date for Local Plan preparation.</p> <p data-bbox="188 495 767 645">If preparation of a Local Plan therefore takes too long, the evidence base may need reviewing, thereby creating further delays in the delivery of the Local Plan (as well as additional cost for the Council).</p>	<p data-bbox="809 322 1362 445">Ensuring Members are aware of the time implications associated with their decisions on the Local Plan, to help keep the preparation process to schedule.</p>
