Appendix B: All projects assessed for funding

Excludes those schemes that are not suitable / do not require CIL funds

						Does the project meet a local need arising from new development?	Is it an item listed on the R123 list?	Are CIL monies requested/required?	Does it meet a corporate priority?	Is it identified in strategy / policy?	Are costs known?	Can it be delivered short-term?				Does the Parish council have local CIL monies?
40	Not started	Coronation Park improvements	Coronation Park - final phase of environmental and facility improvements (art, water features, stone wall repairs, flower beds)	Coronation Park, Ormskirk	WLBC	<input checked="" type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	£409,285	No	<p>Total cost: £30,000 CIL funding requested: £30,000 Other funding required: unspecified</p> <p>This scheme proposes the final phase of environmental and facility improvements and seeks £30,000 of funding. However, there are CIL neighbourhood monies available which may be a more appropriate means for delivery, in order to 'free up' strategic CIL monies for use elsewhere in the borough.</p> <p>However, in any case, at present the Council are proposing to create a new leisure centre in Ormskirk which would involve the relocation of the leisure centre from Coronation Park to County Road and, as a result, new landscaping and reorganisation of the park's layout. Subsequently, it would be better to delay any decisions on funding this project until further details emerge with regard the leisure centre proposals.</p>
159	Not started	Provision of off-road footpath on Tower Hill Road, Up Holland	Provision of a new footpath on Tower Hill Road, Up Holland	Tower Hill Road, Up Holland - land opposite entrance to Wellcross Farm.	Up Holland Parish Council	<input checked="" type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	£73,862	No	<p>Total cost: unknown CIL funding requested: unknown Other funding required: unknown</p> <p>£72,000 of S106 money has been received from Chequer Lane (Phase 1) and must be spent by 2022. No scheme has yet been agreed for the use of these monies, which must be used on the provision of sustainable transport measures. This project may provide a suitable use of S106 and CIL monies to support new development but requires i) further details on costs and ii) a bid for S106 to be approved and therefore cannot be shortlisted at this time. We are aware that Up Holland Parish Council are investigating proposals, and we will continue to liaise between the parish and LCC.</p>

158	Not started	Refurbishment of Wesleyan Chapel to provide community facilities	Refurbishment of Grade II Listed Chapel to provide community facilities	School Lane, Up Holland	Up Holland Parish Council	<input checked="" type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	£73,862	No	<p>Total cost: unknown CIL funding requested: unknown Other funding required: unknown</p> <p>The project would provide community facilities, although the details of the type and breadth of users this would be open to is not apparent through the bid. Dependent on its nature, it could help support new development by providing new facilities in an area which has i) had development and ii) seen the closure of a number of community facilities. However, there is insufficient information regarding costs, funding and delivery to be able to recommend this scheme for CIL funding at this time. In addition, Up Holland Parish Council have received, and will receive in future (Chequer Lane Phase II), CIL neighbourhood monies which could be used to fund this scheme.</p>
155	Not started	Burscough-Rufford Canal towpath improvements	Surface improvements to canal towpath between Burscough and Rufford	Burscough-Rufford	Canal and River Trust	<input checked="" type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	£0	No	<p>Total cost: c.£790,000 CIL funding requested: c.£790,000 Other funding required: c.£0</p> <p>This scheme was identified within the Council's Green Infrastructure and Cycling Strategy (2017) and originally estimated at £896,000. The Canal & River Trust and LCC have provided further information to support the scheme. There is/ has been development (Sluice Lane, Rufford; Yew Tree Farm, Burscough) with which to justify works to towpath improvements to support that new development. However, given the cost of the scheme, the Council would like to see some sources of match funding proposed first. The amount of CIL requested (for 100% of this scheme) exceeds the £100,000 annually allocated for CIL funding and so would require separate consideration by the Council through the annual funding programme.</p>

153	Not started	Hesketh Bank Heritage Park	Creation of a Heritage Park/Gateway Facility for the Douglas Linear Park and Footpaths.	Former brickworks site, Hesketh Bank	West Lancashire Heritage Park Trust	<input checked="" type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	£71,892	No	<p>Total cost: c.£805,000 CIL funding requested: c.£395,000 Other funding required: c.£410,000 (capital / grant monies)</p> <p>Over recent years there has been a significant level of development in Tarleton and Hesketh Bank and the development of 200+ dwellings at the Altys site has now commenced. The project would therefore support both recent growth and planned development. The project would help deliver green infrastructure and facilitate physical and mental health improvement opportunities through cycling and walking. The project has a large degree of cross-over with #10 River Douglas Linear Park. Given that this project supports not just Hesketh Bank, but the outlying and wider areas, use of CIL monies on this project would be appropriate to support local development. The project falls as an appropriate infrastructure use, meets a local need and meets corporate priorities/strategies. The amount of CIL requested (for 100% of this scheme) exceeds the £100,000 annually allocated for CIL funding and so would require separate consideration by the Council through the annual funding programme.</p> <p>Whilst the scheme proposer states that the scheme could be delivered in 2020/21, at present there is no evidence that this is the case. Planning permissions, including the addressing of highway's concerns, are still to be secured. The land for the site is still to be acquired, and the mechanisms for this, including involvement of Persimmon as the Alty's developer, are still to be finalised. In any case, CIL funding could not be made available until at least 2021/22 as this project, like others, needs to go through the year-long CFP process for consideration and is subject to a decision on funding.</p> <p>Whilst the bid specifies the various funding sources which have been applied for, not all monies have yet been secured. Whilst the principle of the scheme is supported, in the absence of secured match funding, it makes it difficult to recommend this scheme for CIL funding in the next financial year. The Council would suggest that the scheme proposer also explores a bid for lottery funding.</p> <p>There is no mention of the NCIL that HWB Parish Council has received to date from CIL Neighbourhood monies, and it could be appropriate for the scheme proposer to see if HWBPC would be willing to put this local CIL towards the project so that best value can be achieved with 'strategic CIL' monies. Subject to the Alty's development commencing, it is anticipated that HWB will receive c.£90,000 (provisional figure only) which could be used towards this project. Delivery of the linear park is a priority for HWB Parish Council.</p> <p>WLBC consider this is a good project, but further detail is needed in relation to delivery and funding and</p>

discussions should take place with the parish council to identify whether neighbourhood CIL monies could be used towards this project before recommending it for funding.

150	Not started	Public Right of Way (8-18-FP139 & FP140)	Improve access along footpath and to canal moorings	PROW between New Lane to Harding Road, Bursough	Lancashire County Council	<input checked="" type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	£217,427	No	<p>Total cost: £21,040 CIL funding requested: £21,040 Other funding required: nil</p> <p>Burscough has seen significant levels of development in recent years, but development around New Lane and Harding Road has been minimal and the need for this project is unlikely to have arisen as a direct result of new development. That said, the strategic site at Yew Tree Farm has now commenced and this is within reasonable distance of the proposed scheme. The towpath serves transport and leisure interests from Burscough and surrounding areas, providing a strategic transport corridor, and public footpath improvements would deliver infrastructure improvements to benefit all users and may encourage further use of the towpath. There have been public requests for improvements and CIL money provides the only funding source for delivery. That said, Burscough Town Council has received significant levels of CIL monies to date and so, in the interests of best value, it is considered appropriate that the scheme proposer approaches Burscough Town Council for neighbourhood CIL funding in the first instance.</p>

Rufford has seen some recent development, and therefore it may be appropriate to consider use of CIL on this project. The bids imply that the full costs of the improvements should be met from CIL but as Network Rail are responsible for the upkeep of stations, it would be expected that these improvements would fall under the mandatory responsibilities of the company, and/or it would be appropriate to see some match funding put forward by Network Rail towards the total costs.</p>

An Ormskirk Town Centre Movement Strategy (OTCMS) is currently being undertaken (led by LCC) which will inform what improvements can be made to the road networks and it would be prudent to await the recommendations of the study. The scheme has not been formally proposed by either LCC or EHU and therefore neither costs nor delivery have been confirmed and it does not form part of any current strategy. Whilst CIL monies are requested, there are no S106 monies available to provide these works and therefore there is no match funding available. The Council will liaise with LCC as the highways authority, and review the results of the completed OTCMS. No monies to be allocated in 2021/22, but this project will be reviewed in future.</p>

Some of this has now been delivered through £32K of S106 monies.</p> <p>However, information has been provided which splits the bowling green from the remainder of the proposals, and therefore the bowling green element has also been recorded as a separate project within this IDS, which could be delivered separately to the wider proposals.</p> <p>The bowling green proposal states that £32,169 of match funding is possible from S106 monies, but these monies have now been allocated to upgrading the MUGA/football area and are therefore unavailable.</p> <p>This bid does not include sufficient information relating to future management and maintenance of the bowling green. In addition, insufficient information has been provided relating to public consultation detailing the level of public support for a bowling green in Tanhouse. The last survey relates to 2014 and may now be out of date.</p> <p>Tanhouse ward has seen the most housing development since 1 April 2012 of all Skelmersdale wards (and over half of all such development in Skelmersdale) but, even so, the actual amount of new housing is not especially large and Tanhouse is not expected to see significantly more housing development in the coming years. Given this, and the uncertainty of match-funding and deliverability, it is not recommended that this project is allocated CIL funding at this time</p>

Martin Mere is also a key strategic tourism site for the Borough that attracts visitors from across West Lancashire and beyond. There has been, and is planned in future, sufficient development in Burscough, and in outlying areas, to justify this scheme as a result of new development. This project, put forward under Green Infrastructure, would serve to increase biodiversity, increase countryside recreation provision and boost eco-tourism.</p> <p>However, while the project has obvious green infrastructure benefits and could boost leisure and tourism in the Borough, over two thirds of the overall project costs are made up of the value of the farmland to be converted which is already in the ownership of Martin Mere WWT and would remain in their ownership after conversion to a reed bed. While there would be a loss of financial value to the land through this conversion, it is questionable whether this value should be included as a cost against the project. Without this cost, the selling of the topsoil would more than cover the cost of the conversion to a reedbed and no CIL monies would be required.</p> <p>Therefore, while this project ticks all the right boxes in the assessment, the breakdown of the costs, and therefore the need for CIL monies, must be questioned, and the value for money of spending CIL in this way must be questioned.</p>

While there would be a loss of financial value to the land through this conversion, it is questionable whether this value should be included as a cost against the project. Without this cost, the selling of the topsoil would more than cover the cost of the conversion to a reedbed and no CIL monies would be required.</p> <p>Therefore, while this project ticks all the right boxes in the assessment, the breakdown of the costs, and therefore the need for CIL monies, must be questioned, and the value for money of spending CIL in this way must be questioned.</p>

In order to safeguard its future for the people of Up Holland, the Parish Council has submitted a formal expression of interest to take community ownership of this asset. This scheme would re-secure the community infrastructure, and there has been sufficient development in Up Holland to justify the allocation of CIL funds. At this time there is insufficient information on costs and delivery to recommend the allocation of CIL funds this year.</p>

No match funding has yet been sourced for this scheme. There has been limited development in Parbold and Newburgh, although towpath improvement works would support a wider area using the canal for leisure, sustainable transport and health and wellbeing. However, given the cost of the scheme, the Council would like to see some sources of match funding proposed first. The amount of CIL requested (for 100% of this scheme) exceeds the £100,000 annually allocated for CIL funding and so would require separate consideration by the Council through the annual funding programme.

The Parish Council are seeking £10,000-£15,000 initially to fund a feasibility study into the proposals, which would provide greater detail on the costs and delivery of the project. However, Burscough Town Council are already in receipt of significant levels of neighbourhood CIL monies which they could use to fund the feasibility study.</p> <p>While there has been new development on the Heathfields estate recently (Ivy Close), it is not a substantial addition, but it does highlight the need to better connect Heathfields with Burscough Town Centre. The proposal would also add to the strategic Green Infrastructure and Cycling network proposed along the canal corridor. However, at this point in time, there are more deliverable and higher priority needs on this strategic canal corridor and it would be more appropriate for the Parish Council to utilise the CIL monies from the "neighbourhood" portion on the feasibility study.</p>

There is significant demand for more allotments in the Ormskirk area. The project is strategic, serving the whole of Ormskirk and surrounding areas where at least 750 dwellings are proposed in the Local Plan. The Council's Leisure Service anticipate they could begin to deliver the new plots from 2020, subject to planning permission and resolution of access. However, it may be more appropriate to consider this project in the future once further consideration has been given to an improved access to this site, as it may be that an alternative site needs to be identified if a suitable access cannot be achieved. No alternative site location has presently been identified.</p>
