4. DATA ANALYSIS	
In relation to the work being carried out, and the service/function in question, who is actually or currently using the service and why?	Users of the bus-service that work / live in the local area.
What will the impact of the work being carried out be on usage/the stakeholders?	Provision of improved infrastructure can only benefit stakeholders.
What are people's views about the services? Are some customers more satisfied than others, and if so what are the reasons? Can these be affected by the proposals?	It would be expected that stakeholders would be in support of improved stops and shelters
What sources of data including consultation results have you used to analyse the impact of the work being carried out on users/stakeholders with protected characteristics?	None. S106 funds must be spent or risk being returned to developers. Therefore, it is important that the council utilise the monies on an infrastructure scheme, designed specifically to provide sustainable transport benefits for local service users.
If any further data/consultation is needed and is to be gathered, please specify:	-
5. IMPACT OF DECISIONS	
In what way will the changes impact on people with particular protected characteristics (either positively or negatively or in terms of disproportionate impact)?	Provision of improved infrastructure can only benefit all parts of the community, including those with protected characteristics.
6. CONSIDERING THE IMPACT	
If there is a negative impact what action can be taken to mitigate it? (If it is not possible or desirable to take actions to reduce the impact, explain why this is the case (e.g. legislative or financial drivers etc.).	No negative impacts have been identified.
