'I have no objection to the redesignation of the Polling District HLA to become Polling District RWE. I support the decision to retain Mobile Unit - Dove Haven House as the Polling Place. I note that the decision to combine the existing Halsall Ward with other wards to create a larger Rural West Ward will result in elections in this location every year, as the borough representatives will be elected by thirds on a rotation basis. This of course increases the cost of democracy in this location which previously had only one elected borough councillor.'

'Based on the new housing estates in the Ashurst Area i am happy to see this polling station remains unchanged - hopefully it will see more footfall with the new residents and the extension of Stanley industrial estate being included. Whilst some people may feel it is a bit of a walk and the Ashurst shops area maybe a little closer I think it's good location. Though a little hidden if you don't know the area. I do feel a good move would be to trial online voting in addition to postal voting - as some of the locations get low footfall'
