Subject: Re: FW: Premise licence review - Ormskirk Super Store

Hi

I would like to support the licence review of Ormskirk Superstore. I have taken part in one previously, where I outlined many, many concerns with the business. My fears at the time appear to have been well founded. Although the last review only considered issue in relation to cigarettes, therefore leaving the Borough Council with little legal ability to take action, we had hoped the exercise would have meant better compliance with their legal duties. It was clear however that their flagrant disregard to the law in relation to cigarettes was indicative of their general attitude to the law, and it has become clearly apparent.

Any establishment that seeks to harm the residents of West Lancashire, is quite simply, not welcome.

I thank those responsible for bringing forward this licence review and trust the committee will take appropriate action.

I will seek to speak at any hearing.

Many thanks,
Gareth
