currently using the service and why?	
What will the impact of the work being carried out be on usage/the stakeholders?	The Pay Policy Statement is a statement of the Council's current policies in relation to the pay of senior managers and the various ratios between higher and lower paid staff. This is a statement of current practice and does not present any practice changes or policy revision. Consequently, there are no altered impacts envisaged on any stakeholder or protected group of stakeholders.
What are people's views about the services? Are some customers more satisfied than others, and if so, what are the reasons? Can these be affected by the proposals?	The Council is part of a national collective bargaining process for all levels of remuneration throughout the Council. The Council itself, however, have determined the grade structure. This main management structure was last amended in April 2022. Any changes achieved at that time were subject to Trade Union and individual officer consultation and were agreed. Although minor change occurs on a service level basis periodically throughout the year. Any actual salary amounts changes since that time have been subject to the national negotiating machinery, which also provides for Trade Union contributions to pay award settlements. This is not an area that can be affected locally, other than in the determination of individual grades. Actual grades are arrived at via a joint Trade Union and management agreed Job Evaluation process. The next National Pay award to be implemented is due in April 2023, but it is not anticipated to affect the grade structure but will affect the actual salary assigned to each spinal column point.
What sources of data including consultation results have you used to analyse the impact of the work being carried out on users/stakeholders with protected characteristics? As there is no proposed change to actual practice, but rather, a reflection of the impact of the pay award on these ratios, it is envisaged that there will be no impact, negative or positive, upon any group with protected characteristics.

6. CONSIDERING THE IMPACT

If there is a negative impact what action can be taken to mitigate it? (If it is not possible or desirable to take actions to reduce the impact, explain why this is the case (e.g. legislative or financial drivers etc.).

See above in 5.

No further actions on equality impact need to be taken.

7. MONITORING AND REVIEWING
