4. DATA ANALYSIS	
In relation to the work being carried out, and the service/function in question, who is actually or currently using the service and why?	Service-users include, but not be limited to, members of the public, residents of the borough and wider area using the route for connectivity and leisure pursuits.
What will the impact of the work being carried out be on usage/the stakeholders?	Provision of improved infrastructure can only benefit stakeholders.
What are people's views about the services? Are some customers more satisfied than others, and if so what are the reasons? Can these be affected by the proposals?	The Council consults on proposals for spending and a public consultation exercise has been carried out. There is overall strong support for this project to be delivered as it would improve physical and mental well-being.
What sources of data including consultation results have you used to analyse the impact of the work being carried out on users/stakeholders with protected characteristics?	In relation to the S106 funds, no specific consultation is required as the S106 funds must be spent or risk being returned to developers. However, consultation was carried out of all CIL /S106 bids received as part of the CIL Funding Programme 2023 seeking support (or otherwise) and views on this project. These are presented in this report.
If any further data/consultation is needed and is to be gathered, please specify:	N/A
