

APPENDIX E

Tenant Views on Budget Issues 2017/18

Tenants have scrutinised the budget proposals and feel that all but one of the budget issues in Appendix D should be funded, based on the information within the report to Cabinet dated 10th January 2017.

Tenants suggested that the £25,000 funding to replace the coloured surfaces on the Flaxton Rainbow should be met from the existing 2016/17 Environmental Programme budget. Tenants advised that if this is not possible due to other commitments from that budget then they would prefer the Council to carry out just enough 'make-good' works to make the site safe in the medium term.

Tenants restated their support of the Beechtrees development and understood the reasons for the additional funding required, but they expressed concern that the latest proposal reduces the total number of properties that will be available to rent once the scheme has been completed.
