To whom it may concern,

My name is Daniel East & I performed an Ed Sheeran tribute act at Jynx Bar on Friday 26th June.

Mr. Kenyon has recently contacted & informed me of the situation regarding music levels on the night in question. I can safely say that after speaking with the bar supervisor when I arrived at the venue, I connected all my equipment & microphone up to the speakers & PA system Jynx Bar provided.

The sound system was perfectly suitable, however during my first set the computer system went down which in turn tripped my guitar & microphone. After speaking to Mr. Kenyon he informed me that the limiter had been triggered & once I had everything back up & running he would reduce the noise level through the main controls situated behind the bar, once I began performing again I completed both my first & second set without any issues.

I am available through my business email to discuss or answer any questions regarding the above.

Kind regards,
Daniel East
