130	Not started	Martin Mere Filtration Reed Bed	Creation of a filtration reed bed. The work will require the removal of topsoil from approximately 74 acres of land, the landscaping of the site, installation of water control mechanisms, planting of reed and installation of platforms/interpretation	Langley's Farm on the Southern Boundary of Martin Mere SSSI, SPA	Martin Mere WWT	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	£58,491	Yes	<p>Total cost: £745,000 CIL funding requested: £200,000 (27%) Match funding: £545,00 (73%) from various sources</p> <p>Martin Mere is a SPA (Special Protection Area) and SSSI, making it a site of international importance for threatened bird habitats and species. Martin Mere is also a key strategic tourism site for the Borough that attracts visitors from across West Lancashire and beyond. There has been, and is planned in future, sufficient development in Burscough, and in outlying areas, to justify this scheme as a result of new development. This project, put forward under Green Infrastructure, would serve to increase biodiversity, increase countryside recreation provision and boost eco-tourism.</p> <p>However, while the project has obvious green infrastructure benefits and could boost leisure and tourism in the Borough, over two thirds of the overall project costs are made up of the value of the farmland to be converted which is already in the ownership of Martin Mere WWT and would remain in their ownership after conversion to a reed bed. While there would be a loss of financial value to the land through this conversion, it is questionable whether this value should be included as a cost against the project. Without this cost, the selling of the topsoil would more than cover the cost of the conversion to a reedbed and no CIL monies would be required.</p> <p>Therefore, while this project ticks all the right boxes in the assessment, and is correctly shortlisted, the breakdown of the costs, and therefore the need for CIL monies, must be questioned, and the value for money of spending CIL in this way must be questioned.</p>

The project has been proposed by the Council's Leisure Service and is deliverable by 31 March 2019. However, while Derby ward (which the play area falls within) has seen amongst the highest levels of housing development of all West Lancashire wards since 1 April 2012, the entrance to the play area is not especially close or accessible to any new development or any housing allocations or other potential housing sites. It may be more appropriate to consider this project in the future (together with the Ormskirk allotments project) once further consideration has been given to an improved access to this site.</p>

There is significant demand for more allotments in the Ormskirk area. The project is strategic, serving the whole of Ormskirk and surrounding areas where at least 750 dwellings are proposed in the Local Plan. The Council's Leisure Service anticipate they could begin to deliver the new plots from April 2018, subject to planning permission and resolution of access. It may be more appropriate to consider this project in the future (together with the Thompson Avenue Play Area project) once further consideration has been given to an improved access to this site, as it may be that an alternative site needs to be identified if a suitable access cannot be achieved.</p>

This project seeks to deliver that upgrade at a cost of £80,000. The Council's Leisure Service have confirmed this could be delivered by 31 March 2019 if it were to receive CIL funding. £40,000 of match funding has been secured from the Football Foundation. Ormskirk has seen plenty of new development in recent years, and more is to come with the Grove Farm housing site in particular, and playing fields such as Whittle Drive serve clubs that draw players from across the town (and beyond), so CIL funding could be invested in this project. This is a considered a high priority for delivery and would allow for an extended level of club football.</p>

The Council's Leisure service has confirmed that this project could be delivered by 31 March 2019 if it were to receive CIL funding. Given its location, the project is not in the vicinity of new development, but it is a strategic route that serves a much wider area being part of a national cycle route, and is part a strategic network of cycle routes, and so CIL funding could be invested in the project.</p>

The Parish Council are seeking £10,000-£15,000 initially to fund a feasibility study into the proposals, which would provide greater detail on the costs and delivery of the project. However, Burscough Parish Council are already in receipt of over £58,000 of neighbourhood CIL monies which they could use to fund the feasibility study.</p> <p>While there has been new development on the Heathfields estate recently (Ivy Close), it is not a substantial addition, but it does highlight the need to better connect Heathfields with Burscough Town Centre. The proposal would also add to the strategic Green Infrastructure and Cycling network proposed along the canal corridor. However, at this point in time, there are more deliverable and higher priority needs on this strategic canal corridor and it would be more appropriate for the Parish Council to utilise the CIL monies from the "neighbourhood" portion on the feasibility study.</p>
