NOTES :

- This drawing is the copyright of Ryder Landscape Consultants. It must not be copied or reproduced without written consent.
- This drawing is to be read as part of a full Landscape Drawing Package in conjunction with all the relevant surveys alongside the Architectural and Engineering drawings.
- Only figured dimensions are to be taken from this drawing. Dimensions should not be scaled from this drawing, as scaling of this drawing cannot be assured.
- All dimensions are to millimetres unless specified otherwise
- All contractors must visit the site and be responsible for taking and checking all dimensions, services and setting out related to the works shown on this drawing.
- All coordinates are set to dimensional points to enable easy cross referencing on site.
- All setting out points are to be verified on site and any discrepancies should be clarified by the Landscape Architect.
- Hatching is not a technical representation of surface patterns, contractors are to follow the line of direction specified on drawings. Where no line of direction is given contractor to contact Landscape Architect before laying.
- All levels should be checked on site and conflicts reported to the design office.

Indicative boundary of new development

Amenity/picnic area with benches

Proposed reinstatement of landscape feature to be achieved with new ornamental planting

Proposed new accessible pathlink

(M) Proposed community orchard:
- to be located adjacent to new allotment site, to be established and managed by local groups and schools, with potential assitance from local plotholders.

(L) Proposed wildflower meadows:
- purpose managed grassland areas to promote wildflowers.

(K) Proposed Forest School area:
- woodland area suited to outdoor environmental education;
- specific themes and facilities to be developed with local schools.

(J) Proposed artwork:
- new sculpture trail to be installed;
- artwork features to be installed at new wetlands.

(I) Proposed improvements to access points:
- new signage and entry features to be installed at existing main entrance points.

(H) Reinstated historic heritage trails - to join existing or proposed new paths:
- Heritage Trail;
- Wildlife Trail;
- Geological Discovery Trail.

(G) Proposed pathlinks:
- new routes to link new and existing features.

(F) Picnic and rest areas
- to be located at new wetlands, heritage locations and features.

(E) Proposed new BMX track:
- purpose built offroad track for BMX and mountain biking.

(D) Proposed new cycle way:
- to be constructed across the full extent of the Valley.

(C) Proposed new SDS (Sustainable Drainage Systems):
- new wetlands to be created to cleanse surface water drainage before entering River Tawd.

(B) Proposed new classrom with toilets:
- to be located adjacent to new allotment site; and
- for use of plotholders and visiting groups and schools.

(A) Proposed new visitor centre:
- to include a cafe, classroom, toilets, and ranger office;
- details TBC.

(11) Existing drainage:
- signs of sufrace water pollution to be further inspected;
- drainage pipe to be reset.

(10) River Tawd:
- debris clearance.

(9) Amenity Area
- to be managed;
- new seating to be installed.

(8) Fishing Lake:
- pond to be cleared.

(7) Existing invasive vegetation
- clear Himalayan balsam.

(6) Existing amphitheatre:
- clear vegetation;
- re-establish terraced seating;
- improve drainage; and
- provide power supply.

(5) Vegetation management:
- clearance of overgrown vegetation including Himalayan Balsam; and
- new planting in selected areas.

(4) Tree management:
- selective removal; and
- crown lifting and other tree works where needed.

(3) Existing pedestrian bridges:
- to be inspected;
- repair works where needed.

(2) Existing entrance points:
- improvement works to features, signage, steps and railings.

(1) Works to existing pathways:
- surface repairs;
- surface upgrading; and
- vegetation clearance.

Key

- Existing woodland
- Existing open grass area
- Area covered by a Tree Preservation Order
