Subject: 23, Church Street, Ormskirk

Dear Sirs, We would like to object to the Premises Licence for 23 Church Street for the following reason:

1. Prevention of Public Nuisance.

The application states recorded music until 2am in the morning , this will disturb not only residents in the flats above but also in the local vicinity.

Who would go to a restaurant after 11pm at night? So why do they need a License until 2am in the morning ?

The Applicant is wanting seating outside both day and night , surely at night this again will disturb residents at night.

They wish to supply alcohol until 2am in the morning (both inside and on their outside seating area) . This is allegedly a restaurant, so why do they need to sell alcohol until this time ? If this very late license is required it is a different type of Licence and not for a restaurant.

Application states there will be minimal movement of bins after 11pm, there should be no movement of bins at this late time , and will only disturb residents in the locality.

Furthermore we have enough bars/restaurants in Ormskirk , it is retail shops we need.

If you do decide to grant this License , we do request it should only be until 11.30pm when a restaurant would close.

Regards,

Mary Wright
